

**Call for Proposals for Panels and Workshops
at the 2027 Joint Mathematics Meetings in Chicago, IL, January 12-15, 2027**

Please complete the submission form by Tuesday, May 5th, 2026

at: <https://meetings.ams.org/math/jmm2027/cfs.cgi>

The AMS solicits proposals for panels, workshops and other events at the 2027 Joint Mathematics Meetings (JMM) to be held January 12-15, 2027, in Chicago, IL.

We invite proposals that reflect the full spectrum of interests of the mathematical sciences community

The topics of proposals could be in areas in the mathematical sciences, but there are others, such as: creating an inclusive atmosphere in the mathematical sciences community; teaching and learning; professional development and professional concerns, recreational mathematics; and wider issues. Events that connect communities are welcome, such as interdisciplinary workshops or collaborations between mathematical sciences researchers and mathematics education researchers.

Proposals should include:

1. If applicable, a [two-digit MSC \(Mathematics Subject Classification\) number](#) that matches the topic of the event or a [code from the New Expanded Classification System](#) adopted for topics included previously in an MAA or other JMM session
2. Title of the event
3. Session Format (panel or workshop)
 - **PANEL** - A panel typically has a theme and about 3-6 panelists, who each make a short presentation related to that theme, followed by general discussion. You may want to encourage discussion among the panelists and/or between the panelists and the audience. Try to pick panelists with a diversity of experiences and viewpoints or perspectives.
 - **WORKSHOP** - A workshop should be hands-on, very interactive, or involve creating or writing something. What will your participants do, or learn to do? Participants may work with each other in small or large groups, or with the whole group.
4. Name, affiliation, and email address of each organizer, with one organizer designated as the contact person for all communication about the event.
5. Some sessions associate their event with an organization (click here for a partial list); list the organization(s) agreeing to be associated with your event
6. A detailed (character limit: 3000) description of the proposed event, including the intended audience
7. A proposed list of panelists/moderators/speakers and their institutional affiliation whom the organizers plan to invite. Have they agreed to participate?
8. Duration of time requested for the event (please indicate in the Notes section: 1 hour, or 1.5 hours)

9. Time slots to avoid (please indicate in the Notes section where possible)
10. Other JMM events to avoid (please indicate in the Notes section where possible)

Proposals for PEPs should be submitted to the JMM Program Committee (<https://meetings.ams.org/math/jmm2027/cfs.cgi>) by Tuesday, May 5th, 2026.

Further Information:

Panels and workshops approved by the Program Committee will be allotted a 90-minute slot. Decisions will be made on proposals approximately a month after the submission deadline has passed.

The number of panels and workshops at the Joint Mathematics Meetings is limited, and because of the large number of high-quality proposals anticipated, not all can be accepted, nor can all scheduling requests be honored.

Please submit as detailed a proposal for your event as soon as possible for review by the JMM 2027 Program Committee. Organizers of proposals will be notified whether their proposal has been accepted by **end of June**. Additional instructions and the event schedule will be sent to the contact organizer of each accepted proposal shortly after that deadline.

We look forward to receiving your submissions
